

DISCOVER ARMSTRONG. THE BETTER BUILT PUMPS.

COMPASS

ENERGY SAVINGS

UP TO **70%**

multi-zone pump w/display

- Easy-to-read display showing GPM / Watts
- Reduces electrical consumption up to 70%.
- One pump reduces your inventory by 10 pumps with a broad operating range, from 20 feet of head and 20 GPM.
- Built-in oversized check-valve maintains full flow. (easily removed if not required)
- Requires only one wrench to remove or tighten bolts.
- Large wiring chamber and front mounted terminal block for fast and easy wiring.
- The Compass Sensorless technology allows the pump to intelligently adapt to system demand, so you get the right set-up every time and your customers enjoy comfortable room temperatures. Ultimately, Compass circulators provide reliable performance, backed by a two-year warranty, with noticeable reductions in energy consumption and operating costs.

Fast & Easy

- Simply press and insert wire. No screws to mess with.
